

PATHWAYS TO CAREER SUCCESS

85% of workforce services clients gain employment

415 workforce services clients received industry-recognized credentials

THE PATHWAY TO CAREER SUCCESS is a journey made easier with the support of National Able Network. Each day, our clients and employer partners throughout the country share feedback like this about the positive impact of our services. During the year, we continued to nurture innovations that help our clients meet their career goals and also help employers gain access to a skilled workforce. We helped thousands of clients close the “skill gap” by offering exceptional training for high-growth industries both in-house and with the help of our partners. Because of these efforts, our clients have found rewarding career pathways and our employer partners are just as pleased to have ongoing access to our talent pool.

Economic uncertainty and the challenges American workers face have made many headlines over the past few years, and this year was no exception. As an agency, one of our favorite headlines this year was the passage of the new Workforce Innovation and Opportunity Act. Our program team implemented an enhanced service delivery approach that fits perfectly with the objectives of the brand new bill. Through the support

973 careers were launched because of our service model

From the East Coast to the Midwest, new opportunities were abundant in our Senior Community Service Employment Programs.

We are incredibly proud of new grants we received which allowed us to serve more than twice as many low-income seniors in Illinois. We are just as proud of our new Senior Ambassador Loaner Laptop Program which was launched in Maine, Massachusetts and New Hampshire.

Our in-house Call Center fielded a record 42,000 calls throughout the year. This astounding figure speaks volumes about our commitment to providing personalized support to every individual who requests our help.

Just before we headed to print with this report, we received word that we were awarded a two-year, \$1 million grant through the generous support of the Walmart Foundation. With this new grant, we will reinvest in the futures of American workers by providing career support and training for occupations that offer family-sustaining wages. We are grateful for all of the support we received this year and encourage you to follow our progress in the year ahead.
