National Able Network Expands its Employment Services to Seniors in the Midwest

The Senior Community Service Employment Program provides employment training for seniors in central Illinois, Iowa, and Nebraska

CHICAGO (February 2017) – National Able Network, Inc., one of the nation’s leading workforce development non-profit organizations, is now offering employment training to seniors in central Illinois, Iowa, and Nebraska through the Senior Community Service Employment Program.

National Able Network has been serving mature workers throughout its 40-year history, and has provided exemplary service through the Senior Community Service Employment Program since 1985. Today, seniors make up nearly half of our country’s workforce and according to *US News*, that number is expected to grow by almost 20 percent over the next 10 years!

“It’s organizations like National Able Network and programs like the Senior Community Service Employment Program that help workers build the skills necessary to find fulfilling career paths and to be successful,” said National Able Network Vice President of Workforce Services and Development, Patricia Wilkins.

Last year, National Able Network provided training and employment resources to 1,466 seniors nationally. These senior participants, in turn, provided upwards of 800,000 working hours at local organizations in their communities.

For more information on National Able Network’s new service locations, please visit www.NationalAble.org/contact or call 855-994-8300.

At National Able Network, our mission is to help make careers happen. Each client receives personalized career supports that integrate career coaching, specialized training, and direct connections to the job market. Our programs are designed to assist jobseekers from all backgrounds, including the unemployed, career changers, military veterans, seniors, and aspiring IT professionals. Each year, National Able Network provides service to nearly 76,000 individuals in Delaware, Illinois, Indiana, Iowa, and Nebraska.
