SUCCESS STORY:

PALATINE OFFICE SPACE

National Able Network understands that most non-profit organizations have unique office, space and leasing needs. Therefore, when it came to adding a new location in Chicago's northern suburbs, we were in the position to create a real estate model that we could leverage to help future colleagues and partners.

BEFORE

“We appreciate your thorough communication during the process, to coordinate with our team, your construction and buildout schedules, along with building management requirements.”

- Victor Fay, Office Revolution

AFTER

“The process of negotiating a direct lease can be a very complicated procedure; however, working with National Able Network was a real pleasure.”

- Randy Olcynk, Chicagoland

ASSIGNMENT:

- National Able Network needed to procure office space that could better accommodate clients and staff in the northwest suburbs.
- The new office needed flexible conference rooms and classrooms with configurable office furniture.
- With a complete build-out, we had the flexibility to create private offices, workstations, a computer lab, and a full technology build-out with high-speed internet, wall-mounted smart technology and other learning tools.

GOALS ACHIEVED:

- Negotiated occupancy costs 12.7 percent below market value.
- Secured a level-pay rental rate throughout the lease.
- Conveyed a turnkey build-out that met programmatic requirements.
- Created a non-profit space reduction clause in the lease document.
- Secured an early-out clause in a long-term lease.
- Completed the build-out on time and under budget.

SUCCESS STORY:

CENTER FOR ECONOMIC PROGRESS

Tax season is the busiest time of the year for Center for Economic Progress, requiring additional staff capacity to seamlessly respond to, and resolve, customer inquiries. More than 17,000 low-income Illinois families receive free tax preparation and financial assistance from Center for Economic Progress' dedicated staff and volunteers.

National Able Network's Customer Contact Center fielded 6,500 inbound calls on behalf of Center for Economic Progress during the 2015 tax season, resolving 81 percent of client inquiries on the spot.

“Tax season requires that we increase our ability to field a significant influx of client inquiries within a very short time period. National Able Network's Contact Center allowed us to handle the volume during the time period when it was most needed, and they provided an exceptional level of care and support to our clients.”

- Raissa Allaire, Chief Operating Officer, Center for Economic Progress

SUCCESS STORY:

INNER VOICE

In 2012, Inner Voice, like many nonprofit organizations, was experiencing funding cuts and was faced with the challenging decision of scaling back either program services or their administrative necessities. They looked to National Able Network for cost-saving solutions to address their ongoing financial reporting and information technology resources.

The back office infrastructure support National Able Network provides to Inner Voice equates to 27 percent in annual savings, or 2 percent of the organization's total operating budget.

“The mission of Inner Voice is to help socially and economically disadvantaged individuals achieve self-reliance. Coming out of the recession, our organization was in need of financial reporting and information technology resources to continue to serve Chicagoans in need of shelter and support. National Able Network gave us expert nonprofit financial reporting advice and information technology services that have helped us create and maintain greater efficiencies.”

- Jackie Edens, Executive Director, Inner Voice
